Description

As a Company, we are unique in the sense that we use traditional and natural ingredients to produce Natural organic Soap. We have a firm commitment to distribute high quality products to the end users and have commitment from distributors to buy our products.

Afriwood Soap Gel (OSE DUDU) is a splendid blend of traditional natural ingredients from the African rain forest. This unique formulation dates back to many centuries and was first used by African kings and queens to beautify and improve their skin. Now repackaged for the 21st century family with a deep cleansing moisturizing effect suitable for all skin types. It offer s a modern option to the old traditional black soap and is purely natural with no chemical additives. An environmentally friendly product with natural antimicrobial, bactericidal and dermatological properties.
