Description

Mhondoro Safari Lodge & Villa is a luxurious, five-star private Safari Lodge and Villa situated within the malaria-free Welgevonden Game Reserve in Limpopo, South Africa. After a devastating fire in 2013 the whole lodge was rebuilt and completed in 2015, and the interiors decorated in an 'African Chic'style – an elegant mix of African design and contemporary European design.
The sophisticated, yet child-friendly lodge, is known for its underground waterhole hide, which is connected to the Main Lodge by a tunnel. This unique feature offers an accessible, safe and one-of-a-kind opportunity to get up close to the animals drinking at the waterhole in front of the lodge. Mhondoro Safari Lodge is the first and only five-star Safari Lodge to offer this exciting and special experience. Mhondoro Safari Lodge is family friendly, yet is private and exclusive, enabling guests to relax and explore abundant wildlife on guided game drives. Welgevonden Game Reserve's strict policy limiting the number of vehicles on the Reserve, enhances the exclusive and peaceful game drives and ensures there will be no interruptions from vehicle traffic. For those preferring to indulge in blissful relaxation, there is a Spa and Wellness Massage Suite where a team of experienced beauty therapists offer treatments to help you unwind. Or perhaps a bracing workout at the fully equipped gym will suit those wishing to stay in shape while viewing the animal activity at the waterhole. The heated pool, sauna, bar and lounge areas are available to all guests throughout the day.
